

Statement of conformity in reports

Depending on the order, we will apply the below cases. Depending on the order, we will apply one or more of the below cases. If you require any adjustment to our procedure, please let us know on your purchase order.

1. Evaluation of conformity in accordance with the inspection concept (legal requirements)
2. Evaluation of conformity in accordance with customer specifications
3. Examination with specifications but without an evaluation of conformity
4. Examination without specifications and without an evaluation of conformity

A measurement uncertainty will only be mentioned in cases 1-3 when a specification limit is surpassed. No measurement uncertainty will be mentioned if the values are below the limit. There is always a statement on measurement uncertainty in case No. 4.
